

Welcome to the Mainstay Life Services Summer Program!

This program is open to adults (ages 18 and older) with developmental disabilities. Our staff to camper ratio is 1:5, so participants who require more individualized supports may be best served at another camp or program. At this time, we are unable to accommodate individuals using wheelchairs or those with extensive mobility concerns.

Mainstay Life Services' staff can administer oral and topical medications. If a participant requires injectable medications, arrangements must be made prior to the start of the program for a nurse or family member to administer that medication.

Our 2010 application for admission is currently being developed. Please check back soon, or call 412-344-3640 for more information. We look forward to seeing you this coming summer!
